Description

he Doctor is retiring. His nurse practitioner is currently seeing his patients for their primary care needs. The Doctor continues to manage the administrative duties of the clinic seeing approximately 75 patients per week. Clinic hours are Tuesday, Wednesday, and Thursday which could easily be expanded. The clinic has one front office person who answers the phone makes appointments and greets the patients and check them in for appointments. They also offer virtual office visits. This is an excellent opportunity for a medical professional who would like to own their own clinic for a fraction of the cost to startup a new clinic. They are a patient pay clinic as they are not in network with any insurance companies bowever, the do bill them. Joining a network could greatly increase revenue.The clinic is Turn Key and fully equipped with 2 exam tables, 1 surgery table, autoclave, surgical, instruments, five computers with five printers, blood pressure cuffs, EKG machine, spirometer, IV pole, waiting room furnishings, and much more.2025 Annual Revenue $506,008Cash Flow: $55,929
